

Title: The PRS (Program Resource System) application is integrating with URM (User Role Management)

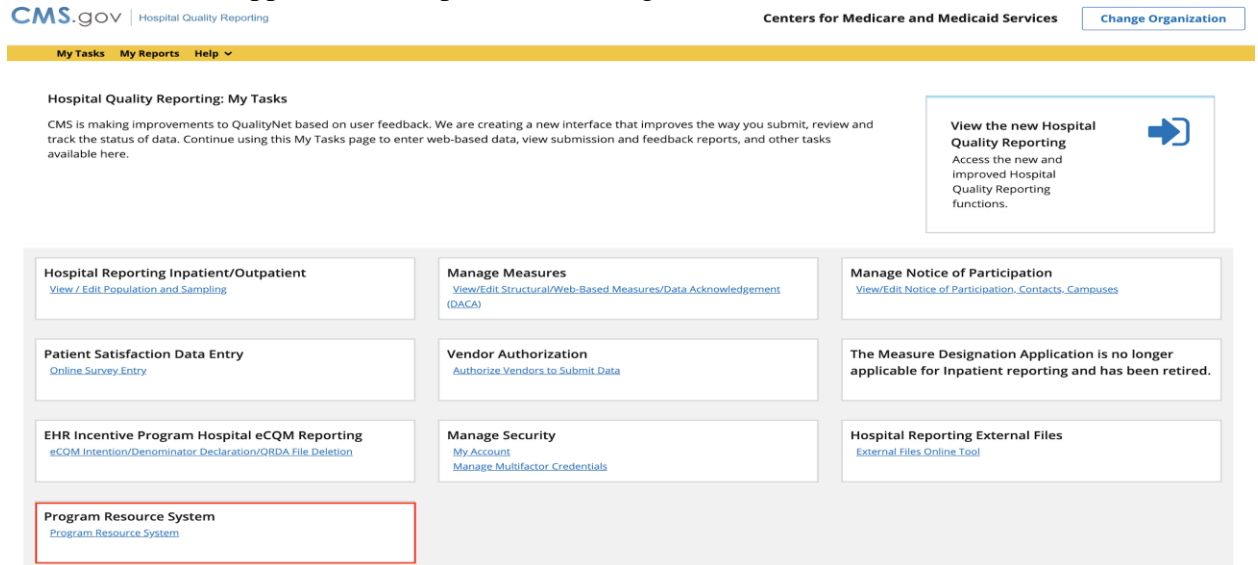

As of November 13, 2020, the PRS application will be integrated with a new user role management service. Harp IDs will be required to access the PRS application. Please follow the instructions below.

How to Access the PRS Application

1. Log in to hqr.cms.gov using your HARP ID and password.
2. **New HQR Landing Page:** Click on the “My Tasks” button.

3. Click on the PRS application and proceed utilizing the tool.

How do I request Access to PRS as a New Security Administrator/Officer (SA/O) in a QIO organization?

- A. Please contact the Qualitynet Help Desk qnetsupport@hcqis.org.

How Do I request Access to PRS as a new QIO Basic User?

- A. Please contact your Security Administrator/Official (SA/O) for all access requests in the near term.

How do I add a new User and provide Access to PRS as a QIO SA/O?

1. Go to Administration > User Management.
2. From the User table you will see all the Users who are currently associated with the organization. Press the “Add User” Button.
3. Search by the new user’s HARP ID. It must be an exact match.

The screenshot displays the CMS.gov Hospital Quality Reporting interface for Carroll Community Hospital. The 'User Management' section is active, showing a table of users. A modal window titled 'Add User' is open, allowing the user to search for a new user by HARP ID. The search bar contains 'jj2150', and the search results show 'James Jameson' as the selected user. The modal also includes a 'Cancel' button and a 'Close' button. The background table lists users with their names, email addresses, roles, and statuses.

Name	Email	Role	Status
Jon Snow	jonsnow@email.com	Basic	Active
Samuel Robertson	jonsnow@email.com	Basic	Active
Robert Jacobson	jonsnow@email.com	Basic	Suspended
Janet Jackson	jonsnow@email.com	Basic	Inactive
James Dean	jonsnow@email.com	Basic	Inactive

4. Click on the User’s name.
5. Choose either Basic User or Security Administrator/Official

User Type
Select the user type you would like to assign the user(s).

Basic
 A Basic User is a User Type with varying levels of Read and/or Read/Write Access to the Organization(s) in their system. Certain Basic Users also have access to Administrative features.

Security Administrator/Official
 A Security Administrator/Official is a person who manages User Types & Permissions for their Organization and the programs they support. Most SA/O have Read/Write Access to their programs.

6. Select Program Access Permissions
