# 2023 Data Camp Master Data Management (MDM) Data Overview and Updates Q&A

1. **Does gender refer to the user identified gender or the biological gender? Is there a different term in the data tables to separate the two concepts?**
   A - The source system does not give us that identifier to differentiate it. We do not have that differentiation.
2. **Is the National Provider Identifier (NPI) assigned to a facility practice, or a person?**

   A - NPI is assigned to both a provider, which is an individual provider, and it can also be assigned to a practice as well, and for a given organization.
