

June 5, 2024

Planned Activity – Action Needed by Friday, June 7th at 3pm ET

Planned Actions: A scheduled SAS Viya, Databricks and CDR maintenance event will begin on Friday, June 7th, at 8:00pm ET.

Impacted Community: All SAS Viya, Databricks, and CDR Users

Planned Downtime: Friday, June 7th at 8:00pm ET – Sunday, June 9th at 8:00am ET

Planned Activities:

- Routine OS and Security Patching on CDR, SAS, and Databricks
- Routine patching on CSAT EMR Cluster
- Routine patching of the CentOS Servers
- CDR User Data Migration – Phase Four (of Seven) (additional details below)

Call to Action:

- **Please ensure to save your work (i.e. data, script, and tables) by Friday, June 7th at 3pm ET.** This is to ensure that your information will be saved throughout the maintenance process. Any long running jobs would need to be restarted after the event.
- Save your data from SAS Content to your workbench by following [these instructions here](#).
- Please also save any of your CASLIB datasets before maintenance by also following [these instructions here](#). After the maintenance window, you will need to load your tables back into memory in order to continue working with them.

Centralized Data Repository (CDR) User Data Migration – Phase Four:

- The CCSQ Data & Analytics team will be migrating databases and tables to the new consolidated environment over the next two quarters. The fourth phase of the migration will occur on Friday, June 7, 2024. To see a list of the databases that will be migrated as well as the schedule of the upcoming migrations, reference our article on the Portal: [Consolidation of Tables and Databases](#).
- If you have any concerns related to contractual deliverables during this period, please reach out to our team through the [request form](#), indicating other possible timeframes, and our team will accommodate as per availability of resources.
- **Post Migration Note:** If you utilize scripts that rely on the table locations being migrated, the updated location can be found after the migration in the table definitions.
