Confluence Session Timeout Update

The Atlassian team is aware of the recent session timeout issue reported for Confluence. Tonight, November 2, 2021, at 8 PM – 9 PM ET we will be updating the Confluence session timeout to resolve the issue.

There will be no downtime for QualityNet Confluence, however, if your session gets disconnected during this time period, please refresh the page to resume your session.

If you have any questions or concerns, please contact our Slack channel [#help-atlassian](#).
