Planned Activity

Planned Actions: CloudBees Jenkins Maintenance

Impacted Application Development Organizations (ADOs): All ADOs

Planned Downtime: Friday, September 29, 2023, from 6:00 p.m. ET until 7:00 p.m. ET.

What To Expect:

- The ESS II DevSecOps team will be performing a short maintenance on CloudBees Jenkins to update certificates in the environment. This is being done to prevent Jenkins job failures due to certificates mismatch. This involves restarting all the CJE controllers. No action is needed from the users at this time.
- CloudBees Jenkins will be unavailable Friday, September 29th between 6:00 p.m. ET and 7:00 p.m. ET.

For any questions or concerns, please feel free to reach out to the DevSecOps team on Slack [#help-devsecops](#) channel.
