Planned Activity

Planned Actions: HARP v16.2 Production Release, 5/10/2022 at 8:00 PM ET

Impacted Application Development Organizations (ADOs): All HARP Users

Planned Downtime: 30 minutes (no downtime to users)

What To Expect:

Enhancements:

- HOMER
 - Enabled QNOD in HOMER so that the contract onboarding team can add new organizations for QualityNet Operations Dashboard.
 - Granted the SO role QNOD access and assigned a SO.

Defects:

- Registration
 - Removed the populated (masked) SSN from Profile Information page so that the user can enter.
 - Removed the Initiate Manual Proofing link after user retrieves information using the Retry Remote Proofing link.
 - Updated the peek-a-boo functionality so that after entering their password the user has the option of displaying what they entered.
 - Updated the State dropdown so that US territories are in alphabetical order
- Account Recovery
 - Added an error message on the Reset Challenge Question Page when the user enters a Challenge Question Answer but does not select a Challenge Question.
 - Enabled the Enter key to click the Next button after the user enters the answer to the challenge question for password reset.
 - Updated the Account Recovery to allow an email address with apostrophe.
 - Updated the Reset Password and/or Recover User ID email so that it displays the correct Help Desk information.
