Planned Activity

Planned Actions: HARP v14.9 Release, 12/17/2021 at 2:00 PM ET

Impacted Application Development Organizations (ADOs): All HARP Users

Planned Downtime: 30 minutes (*no downtime to users*)

What To Expect:

Enhancements:

- HOMER
 - Extended HOMER to add dependent entitlements during the entitlement creation as part of Org onboarding.

Bugs:

- HOMER
 - When a user clicks on the search button on the Organization management screen without entering the search criteria then all organization details are displayed
 - Updated logic to correct a display error when a SPOC is assigned for an organization
- SO
 - An hourglass will display when the view link is selected on either the SO User Lookup or SO Role Requests screen
 - Updated logic so that the number of rows on the console and User lookup screen match
 - Updated the pagination on the user request page to display a max of 10 pages vs. 100 to enhance user experience in terms of load time

- User Profile
 - The user can change the email on the user profile screen
 - Updated spelling error for challenge question to “Where did you meet your spouse/significant other?”
