

## QualityNet | Network

July 8, 2022

### Planned Activity

**Planned Actions:** Upgrade the Production Firepower Management console and PDHUB-NGFW firewalls to remediate vulnerabilities – CHG0053971

**Impacted Application Development Organizations (ADOs):** ADOs and Ventech

**Planned Downtime:** 7/11/2022, 11:30 p.m. – 7/12/2022, 1:30 a.m. ET

**What To Expect:** Although downtime is listed with a two-hour window, only a limited brief impact to related Inbound URL traffic flowing through the firewall being upgraded at that time is expected to occur as the traffic is failed over to the other availability zone. Any disruption would be limited to a few minutes at most and, under previous upgrades, that failover has been transparent to the user community.
