

Planned Activity

Planned Actions: On Tuesday, June 11, 2024, at 4 p.m. Eastern Time (ET), we will release QualityNet Operations Dashboard (QNOD), Version 2.21.0. This version will include the following enhancements:

- Release enhancements to User Service Configuration Key Performance Indicator (KPI) updates and Interface (UI).
- Service Configuration Updates:
 - Jenkins Service KPI update to accurately reflect the availability in QNOD.
 - FIVS Summary Service KPI queries are updated under QDIVS Service to reflect infrastructure changes on the QNOD dashboard.
- User Interface Updates:
 - A new dropdown filter capability to search based on service status and clear filter selections.
 - Enhancement to the Search Bar for greater visibility and easier access to specific Services by name.
 - Converting the existing Legend into a non-filtering functionality, guiding users towards the new filtering feature.

Impacted Application Development Organizations (ADOs): All QNOD users.

What To Expect: The QNOD Dashboard (<https://gnod.cms.gov/>) deployment will be from 4:00 p.m. until 6:00 p.m. ET.

For any questions, please feel free to contact the QNOD team on the [#help-qnod](#) Slack channel.
