WHEN TO HOLD A DESIGN STUDIO

New project

New feature / functionality

Redesign of an existing page

Basically anytime you're starting from ground zero
(Early in the design process)

MEETING INVITE

1.5 – 2 hours

Invite all interested participants

- Researchers
- Designers
- Business Analysts
- Developers
- Product Owners

MEETING MATERIALS

- Pens / Pencils / Markers
- Paper
 - Notecards work well for mobile app designs
- Web conferencing software
 - Zoom, Skype, Webex
- Smartphone

The Design Studio

MEETING SCHEDULE

5 min – Design prompt + questions

10 min – Heads-down sketching

5 min – Photographing sketches + sending to coordinator

5 min per participant – Sketch presentations + comments/questions

10 min – Discussion of design ideas for initial wireframes

Total 50 min (for 4 participants)

1. DESIGN PROMPT (5 min)

Design prompts written in user story format:

“As a [user], I want to [user action], so that [business reason]”

Example:

As an iQIES user, I want to fill out an Access Request Form, so that I can request my user role and associated providers.

Acceptance Criteria

- I can select a single user role
- I can select one or more providers

2. SKETCHING (10 min)

Meeting coordinator sets a timer for **10 minutes** and gives the participants occasional time updates.

All participants are heads-down sketching during this time.

3. SKETCH DOCUMENTATION (5 min)

After the 10 minutes are up, all participants take photos of their sketches and email them to the meeting coordinator (ideally with smartphones).

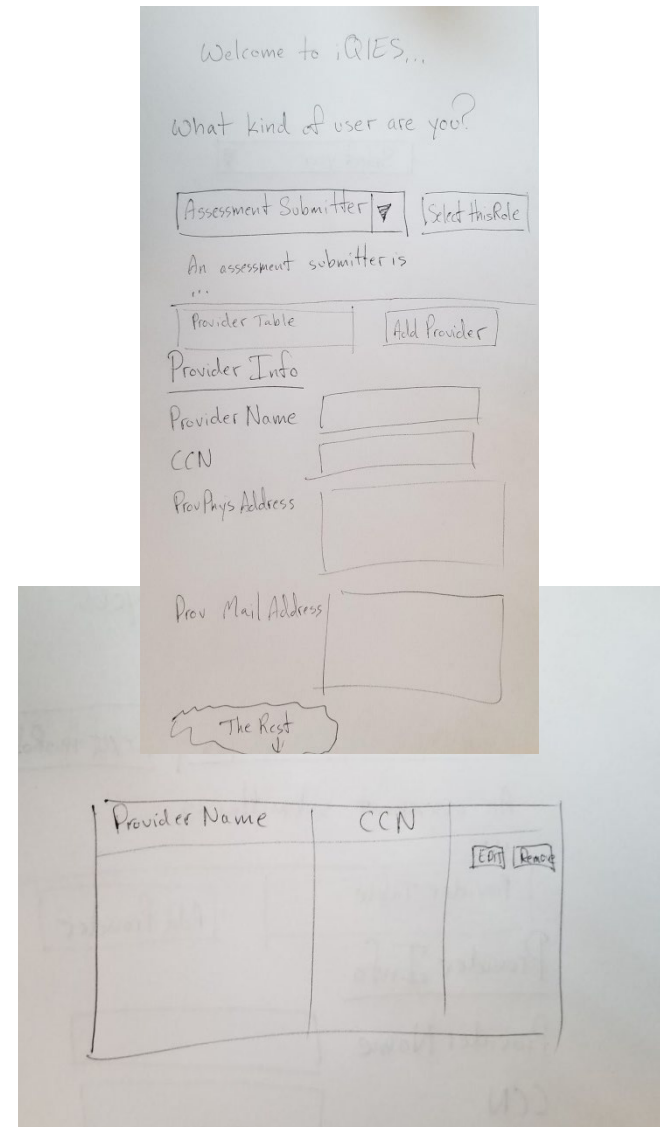

The meeting coordinator downloads all sketch photos and shares their screen for sketch presentations.

4. SKETCH PRESENTATIONS (5 min per participant)

The meeting coordinator shares the sketches of each participant.

Each participant takes a couple minutes to present their sketches. A few minutes are provided for any questions, comments, or clarifications.

5. DESIGN DISCUSSION (10 min)

At the end of the sketching presentations, some final time is allotted to discuss the best ideas from the sketches.

This discussion should drive initial wireframes and design decisions.

The screenshot shows the iQIES web application interface. At the top left is the iQIES logo, and at the top right is a 'MENU' button. Below the header, the breadcrumb 'Home / Access Request Form' is visible. The main heading is 'Welcome to iQIES!' followed by 'Access Request Form'. A paragraph of placeholder text follows. A note states 'All fields marked with an asterisk (*) are required.' The 'User Role *' field is a dropdown menu showing '[Role Name]'. Below it is a description for the role. The 'CCN *' field is a text input with an 'Add' button. A table lists providers with columns for Provider Name, CCN, Address, City, State, and a 'Remove' link. At the bottom is a 'Submit Request' button.
