Planned Activity

Planned Actions: HARP v14.7 Release, 12/3/2021 at 5:00 PM ET

Impacted Application Development Organizations (ADOs): All HARP Users

Planned Downtime: 30 minutes (*no downtime to users*)

What To Expect:
Enhancements:
- HERMES:

    o Provide users with the ability to search for all users and their roles in an organization so that they can verify organization Security Officials

Bug Fixes:

- Registration:

    o Corrected spelling error in the challenge question "Where did you meet your spouse/significant other?"

- User Search:

    o Return results when leading/trailing spaces are used in search criteria for user information

- Contact Helpdesk:

    o Removed HEAP from the Contact Helpdesk page

- HERA:

    o Session timeout warning will be triggered when a session is left idle for 13 minutes (not when a user is actively working in HERA)

- o Previously selected organizations/programs will be retained when a user clicks on the back button while requesting a role

- HERMES:

  - o Adjusted the org/role information on the Request History modal so that the results are aligned appropriately under the header information

  - o Updated deactivation and reactivation logic so that Justification text is required

  - o Enhanced error messaging when a user enters an invalid response to a challenge question
