SAVIYNT v5.5 SP3.10 UPDATE

Hello HARP Community,

Saviynt will be applying Service Pack 3.10 to our current 5.5 version over the next several weeks **starting with our lower environments** before applying to production.

The current update schedule is as follows: SBX: 11/19 9 pm ET, TEST: 11/24 9 pm ET, PROD: 12/17 9 pm ET.

We ask that each consumer of HARP execute a full regression test of their integrated environments. Please inform the HARP team of any related issues encountered after each update. Additional communications will be sent prior to each environment deployment. Any changes to the schedule will be communicated.
