# Planned Activity

**Planned Actions:** HARP v18.4 Production Release, 11/09/2022 at 4:30 PM ET

**Impacted Application Development Organizations (ADOs):** All HARP Users

**Planned Downtime:** 30 minutes (no downtime to users)

**What To Expect:**

Enhancements:

- Registration, User Profile
    - Allowing registration API to consume special characters.
        - Special character include -.'@_
    - HERMES updated to allow username to include: !$?%*#&^,;/+=Space
- User request & pending request
    - Make additional API call getRequestHistoryDetails to Saviynt, parse the response for all entitlements for each request and add them to user pending request and user request history proxy API.

Bug Fixes:

- 508 Remediation
    - Update the following to be 508 compliant:
        - Changes includes profile information, role request, user roles, SO role request, SO user lookup, SO request history, registration, login/account recovery, HERA user role, role request, select role, HARP registration.
- Request History
    - Users with less than 6 characters in their username can see their request history.
