Alert November 18, 2022

Planned Activity

Planned Actions: HARP v18.5 Production Release, 11/18/2022 at 5:00 PM ET

Impacted Application Development Organizations (ADOs): All HARP Users

Planned Downtime: 30 minutes (no downtime to users)

What To Expect:

Enhancements:

- API Update
    - Modify API to filter out inactive roles and internal only roles.
- User Role
    - Validate the user and password policies are in sync with OIT polices.
    - Import user endpoint for EIDM, EUA or Okta share users need to validate Saviynt data before other validations.
- Hermes
    - Allow triage tool to recognize a user deactivated in Okta as a valid candidate for reactivation and the reactivation process will trigger the Okta reactivation process.
- UI Enhancement
    - Update the @cmsgov-design-system-* package to the latest version to update font from design package.

Bug Fixes:

- HERA
    - Display correct text when user selects "I don't see my organization" radio button.
- User Profile
    - User feedback msg is displayed with correct upper and lower cases.
