Planned Activity

Planned Actions: Upgrade AWS **Production** F5 load balancers to remediate vulnerabilities CHG0053544

Impacted Application Development Organizations (ADOs): ADOs & Ventech (all F5-hosted URLs)

Planned Downtime: March 5, 2022, 12:01 a.m. – 12:06 a.m. ET

What To Expect: While our downtime is limited to 5 minutes occurring between 12:01 a.m. and 12:06 a.m., we expect only a brief impact to F5-hosted URL traffic while traffic is failed over to the other availability zone. Any disruption is limited to a few minutes at most and, as with previous upgrades, the failover has been transparent to the user community.
