Planned Activity

Planned Actions: GitHub Upgrade

Impacted Application Development Organizations (ADOs): ALL ADOs and Ventech

Planned Downtime: Saturday, August 20, 2022, from 6:00 p.m. – 8:00 p.m. ET

What To Expect: A new version of GitHub was just released that has a couple of High and Critical security fixes. To ensure that the system is up to date with the fixes from a security standpoint, the self-hosted GitHub will be upgraded to Release 3.5.4 during the DevOps tools monthly maintenance window on Saturday, August 20, 2022, at 6:00 p.m. We expect maintenance of GitHub to be complete by 8:00 p.m. ET. Users may experience degraded service during this time.

For any questions or concerns, please feel free to reach out to the DevOps team on Slack #hids-clouddevops-support.
