UPCOMING ADO ACTION REQUIRED

Hello HARP ADOs,

The HARP team is currently in the process of building proxy services for Saviynt APIs as part of the Saviynt Replacement Program. More information concerning the program can be found [here](#). Previously, the HARP Team compiled a list of all Saviynt APIs that HARP ADOs utilize. The HARP Team will now present HARP APIs to ADOs and enable ADO Apps to consume Proxy APIs.

On July 18th, 2022, meeting requests will be sent to HARP ADOs to discuss the LOE, requirements, and ADO actions needed for this process. If there are questions or concerns, please contact Natalie Saks (nsaks@tantustech.com).

If you need additional information, contact us:
