Alert September 20, 2022

Planned Activity

Planned Actions: HARP v17.9 Production Release, 9/20/2022 at 5:00 PM ET

Impacted Application Development Organizations (ADOs): All HARP Users

Planned Downtime: 30 minutes (no downtime to users)

What To Expect:

Enhancements:
- Login UI update
  - Converted forms to use harp common form component. This will update the CSS selector to support QA for automated testing.
- Proxy update
  - Converted parameter name to adoToken for External user creation api.
- HARP node services
  - Upgrading the HARP node service libraries in package.json.

Bug Fixes
- Triage Tool
  - Newly approved user roles will show up in Triage tools.

- Registration
  - EIDM LOA1 user details will be displayed on UI.
