

Alert May 6, 2022

Planned Activity

Planned Actions: On Saturday, May 7, 2022, Saviynt will be applying a security patch to address OS-related vulnerabilities which will require a rolling restart of all servers. There will be no impact on Saviynt application functionality.

Impacted Application Development Organizations (ADOs): None.

Planned Downtime: Maintenance will be completed between 3:00 - 8:00 PM EST. No downtime is expected. However, there is a very small possibility of downtime for up to 40 minutes.

What To Expect: Once Saviynt has applied the security patch updates, the team will complete validation. No ADO actions are required.
