Planned Activity

Planned Actions: HARP v15.9 Production Release, 3/30/2022 at 5:00 PM ET

Impacted Application Development Organizations (ADOs): All HARP Users

Planned Downtime: 30 minutes (no downtime to users)

What To Expect:

Enhancements:

- Proxy Enhancement
    - Integrated with new user-search service which facilitates the user search proxy service from Saviynt and/or OKTA systems (continued).

Defects:
- HERA
    - Updated the text wrap on the Request ID pop up so the details of Organization and Role display correctly.
- HERMES
    - Clarified the message to make the user aware to expand the search criteria if no results are found.
    - Resolved issue that prevented the unlocking of usernames with special characters.
- HOMER
    - Updated the text wrap on the Organization Management screen so the details of Organization and SO Name display correctly.
    - Enabled the Tools dropdown menu on the Security Official and Organization management pages for those users that have access.
