PRS 2.0 Planned Activity Success

PRS 2.0 Release 6.9.0 has been successfully deployed to Production!

What To Expect:

HSP Module:

- Tech tips updated for cross reference information, unit bed information, and FI/Carrier/MAC section fields (e.g. when user hovers over the field, the definition of the field will appear)
- Users can now view the hospital OQR validation summary for the provider
- API for the Inpatient discharges for the provider completed (UI will be made available to users in the subsequent release at which time users can view the provider information)

MA Plan Update:

- Added basic search api (Note: UI will not be available for this upcoming release, it will be available for 6.10.0)

Bug Fixes Beneficiary:

- Beneficiary - Modify Columns Section to keep death date, gender, remove address
