❗ Planned Activity Success

PRS 2.0 Release 5.8.0 has been successfully deployed to Production!

What To Expect:

- Implemented Elastic Search functionality which improves speed of data displaying, page loading, and search results
- Enhanced Contact Information display
- Updated HSP Advance search dropdown to have a blank option so users can remove dropdown selection without having to click the "Reset" button
- Can no longer deselect the primary column from search results view (i.e., Name column in HSP disabled under Modify Columns)
- Fixed bugs:
  - User was unable to see search results for selected any HSP category from Advance search
  - Resolved settings and provider type to show display and description with search result filters
