PRS 2.0 Planned Activity Success

PRS 2.0 Release 6.25.0 has been successfully deployed to Production!

What To Expect:

The QNP/PRS Team has performed the following updates within the HSP Module as a result of the recent HSP Edits UAT period testing in PRS 2.0:

- Added a confirmation modal window when user is removing the HSP Contacts.

- Defects addressed:

  o Users are now able to add new contact, fax number with hyphens.

  o Resolved issue when the session expires, which was giving a warning of "Unable to Load". The system will now properly redirect users to the login page as originally intended.

- o Resolved issue when contacts are removed; the system now properly provides the system alert when user tries to remove contact.
