

Subject: Feedback Opportunity: Help us improve the QPP website

We have a current need for participants for our latest User Research effort about organizing information on the Quality Payment Program website.

Why this matters: It is important for information and resources to be well-organized on the QPP website in order for you and other participants across the country to be successful. With changes coming to the program related to MIPS Value Pathways (MVPs) and the APM Performance Pathway (APP), it's critical that you can find the latest information when available.

How you can help: If you're interested and have 50 minutes to chat, I'd like to schedule a conversation for you to gain your insights into how we can best organize information on the site. Your feedback will contribute to our continued effort to provide information and materials in a way that meets your needs.

When: We're scheduling sessions through September 17. Sessions will take place remotely over Zoom. Please click the Calendly link below and set up a day and time that works best for you. If none of the times work for you and you would like to schedule time to talk, please email me at [\[researcher address\]](#) and we will try to find a time that fits your schedule.
