Deputy Director, Division of Quality Systems Governance, Engineering, and Development

Rob Fay

HCD Strategy Lead,
robert.fay@tantus.hcqis.org

Maky Afework

Senior HCD Strategist,
makeda.afework@tantus.hcqis.org

Corey Deahl

Senior HCD Strategist, corey.deahl@tantus.hcqis.org

BUILDING A ROADMAP USING ATLASSIAN

Roadmap in Confluence

Roadmap in BigPicture for Jira

Josiane Alagbe

Portfolio Report Lead, PM3

The Problem

- **Focus on near-term without clear understanding of long-term goals.**
- **How to visualize work across PI and make adjustments?**

Solution 1: Confluence Roadmap

- **Live Demo**

<https://confluence.hcqis.org/pages/viewpage.action?pageId=44536430>

- **Pros**

- Easy to use
- Good look and feel

- **Cons**

- Not dynamically generated; manually built
- Cannot integrate any data from Jira into the roadmap
- Confluence Roadmap Macro is not responsive
- Not possible to show the full task name if task duration is too short

Solution 2: Jira Big Picture

- Live demo

https://jira.hcgis.org/plugins/servlet/softwareplant-bigpicture/roadmap?program=10#/selected_timeline_item=cad290

- Pros

- Dynamically generated using data in Jira
- More robust
- Ability to edit Jira data from BigPicture

- Cons

- User needs some training in order to know how to configure a BP program

Announcements

- Paperwork Reduction Act - https://www.surveymonkey.com/r/ISGPlaybook_HCD
- CMS Design System - <https://design.cms.gov/>
- Next Meeting – Apr 25 @ 3pm
- Happy Hour @ Las Vegas Restaurant, 7175 Security Blvd, Windsor Mill, MD 21244
