

**Alert November 28, 2023**

## Planned Activity

**Planned Actions:** On Tuesday, November 28, 2023, at 4 p.m. ET, we will be releasing a new version of the QualityNet Operations Dashboard (QNOD2, Version 2.8.0).

**Impacted Application Development Organizations (ADOs):** All QualityNet Operations Dashboard users.

**Planned Downtime:** November 28, 2023, between 4:00 p.m. ET and 5:00 p.m. ET.

**What To Expect:** The following Services will be added to the QNOD2 Home and drill down pages:

- GitHub
- New Relic
- ServiceNow
- Slack
- SurveyMonkey
- TestRail

**Note:** The above new services drill down page will show complete Health Composite chart data after 24 hours.

**Enhancements:** The y-axis scale on the Health Composite graph has been updated to reflect the service's total possible health dynamically. Additionally, minor spacing adjustments have been made to the graph.

**Known Issues:** "Open Issues" tile on the service drilldown page links to an older Jira project.

The Release Notes for all past releases can be found on [Confluence](#). Once you are on the page, click on the **Release Notes 2.0 tab** at the top of the page.

For any questions or concerns, please feel free to reach out to the QNOD team on [#help-gnod](#) Slack channel.
