

March 1, 2024

Planned Activity Tonight

Planned Actions: A scheduled SAS Viya maintenance event will begin tonight, March 1st at 8:00pm ET.

Impacted Community: All SAS Viya Users.

Planned Downtime: This maintenance event will begin tonight, March 1st at 8:00pm ET and end at approximately 11:00pm ET.

Call to Action:

- Please ensure to save your work (i.e. data, script, and tables) before the maintenance event. This is to ensure that your information will be saved throughout the maintenance process. Any long-running jobs would also need to be restarted after the event.
- Save your data from SAS Content to your workbench by following [these instructions here](#).

Please also save any of your CASLIB datasets before maintenance by also following [these instructions here](#). After the maintenance window, you will need to load your tables back into memory in order to continue working with them.

If you need additional information, contact us:
