Trend Micro Deep Security Manager Upgrade

Planned Actions: Upgrade the Trend Micro Deep Security Manager (DSM) to address vulnerabilities.

Impact: No impact to the Application Development Organization (ADO) community.

Planned Time:

- Start Time: Friday, November 29, 2024, at 12:00 PM ET
- End Time: Friday, November 29, 2024, at 1:30 PM ET

What to Expect: Trend Micro DSM will be unavailable during the downtime window.

Questions

Please reach out in the [#help-devsecops](#) Slack channel if you have any questions.

If you need additional information, please work with your assigned CMS Information System Security Officer (ISSO) ([List here](#)), the CCOM Security Analyst team, or reach out on QualityNet Slack: [#qnet-security-community](#).
