CDR Weekly Refresh Update

Please note below the data refreshes that occurred within the Centralized Data Repository (CDR) during the week of 9/13/2020 – 9/19/2020. For specific refresh dates of each source, please reference the CDR Data Catalog on [Confluence](#). The following sources were refreshed:

CDR Hive Schema
beneficiary_data
provider_pmi_data
legacy_assessment_data

There were a number of legacy sources that had refresh dates updated this past week due to updated timelines for the schemas decommissioning in the ADC. If an organization has any questions about the updates from this previous week, please contact us via email.

The data refresh dates are published for awareness of data timeliness. If your organization requires data to be refreshed on a different timeline or cycle, please create a ServiceNow request for the "ADO-CDR-Support" and include details of your request including business justification, data source, requested refresh frequency, and requested refresh dates. The "Most Recent Refresh" refers to the date the data was extracted from the legacy database or source system. This data is typically available 24-48 hours after extraction. The "Next Refresh" date marks the last possible day the data will be available in the CDR. If you have any questions, please contact us at HCQIS_Data@hcqis.org.

Upcoming Communications Call

Please join us for our upcoming Communications Call, which is this Thursday, September 24th, at 1:00pm EDT. We will have a special speaker from the HCQAR RA (Healthcare Quality Analytics and Reports) group presenting the special focus section of our call, reviewing their experience with SAS Viya and the CDR. If you do not have the invitation, please email us at HCQIS_Data@hcqis.org.

Special Focus: Knowledge Base

Check out our SAS Viya Knowledge Base [here](#) on Confluence. The purpose of this page is to share the knowledge gained from users who have opened ServiceNow tickets and materials found by users for the larger Viya community. The Knowledge Base repository consists of four main categories: How To Articles, Troubleshooting Support, Additional Resources, and Best Practices.

If you have any questions or need assistance, please contact us at HCQIS_Data@hcqis.org.
