## CDR Weekly Refresh Update

Please note below the data refreshes that occurred within the Centralized Data Repository (CDR) during the week of 9/20/2020 – 9/26/2020. For specific refresh dates of each source, please reference the CDR Data Catalog on [Confluence](#). The following sources were refreshed:

CDR Hive Schema
beneficiary_data
provider_pmi_data
nch_part_a
nch_part_b
csat_2
csat_5
compare_nursing_home

The data refresh dates are published for awareness of data timeliness. If your organization requires data to be refreshed on a different timeline or cycle, please create a ServiceNow request for the "ADO-CDR-Support" and include details of your request including business justification, data source, requested refresh frequency, and requested refresh dates. The "Most Recent Refresh" refers to the date the data was extracted from the legacy database or source system. This data is typically available 24-48 hours after extraction. The "Next Refresh" date marks the last possible day the data will be available in the CDR. If you have any questions, please contact us at [HCQIS\\_Data@hcqis.org](mailto:HCQIS_Data@hcqis.org).

## Nursing Home Quality Initiative (NHQI) Files

By 9/30/2020, NQIIC Task Order 1 organizations will receive access to Nursing Home Quality Initiative (NHQI) files for their assigned states. These files will appear in their SAS Viya workbench in a folder named "NHQI". Each quarter upon delivery of these files (around the day of the 12th), the new files will automatically be placed in the same folder. If you have any questions, please contact us at [HCQIS\\_Data@hcqis.org](mailto:HCQIS_Data@hcqis.org).

## Confluence Space URL Change

Please note that our internet facing Confluence space URL has changed to <https://qnetconfluence.cms.gov/display/DATA/>. The current URL for our space will automatically redirect you to the new URL to minimize access issues. This redirect will be in effect until November 25th. **You are encouraged to update your bookmarks with the new URLs immediately.**
