**From:** Information for CCSQ Data & Analytics users regarding the CCSQ Analytics Platform (CAP) and the Centralized Data Repository (CDR), including meeting invitations, system announcements, and data refresh updates. <qnet-analytics@mailers.qualitynet.org>  
**Sent:** Monday, October 26, 2020 6:02 PM  
**To:** qnet-analytics@mailers.qualitynet.org  
**Subject:** [Qnet-analytics] CCSQ Data & Analytics Weekly Communication  
**Attachments:** ATT00001.txt

## QualityNet | Analytics

*Weekly Communication*

*October 26, 2020*

This email is part of a weekly communication series from the Data and Analytics Modernization team, designed to provide you the latest updates on the SAS Viya application, the Centralized Data Repository (CDR), and user experience offerings.

This week's email contains information and updates on the following topics:

- Important URL Changes
- CDR Weekly Refresh Update
- New Distribution List
- Important Links and Dates

### **IMPORTANT URL Changes**

Please note that the SAS Viya URL has changed to <https://qnetanalytics-viya.cms.gov/>. The obsolete URL will automatically redirect you to the new URL to minimize access issues. This redirect will be in effect until December 1st.

Also, our Confluence space URL has changed to <https://qnetconfluence.cms.gov/display/DATA/>. The obsolete URL for our space will automatically redirect you to the new URL to minimize access issues. This redirect will be in effect until November 25th.

You are encouraged to update your bookmarks immediately.

## CDR Weekly Refresh Update

Please note below the data refreshes that occurred within the Centralized Data Repository (CDR) during the week of 10/18/2020 – 10/24/2020. For specific refresh dates of each source, please reference the CDR Data Catalog on [Confluence](#). The following sources were refreshed:

CDR Hive Schema
beneficiary_data
provider_pmi_data
nch_part_a
nch_part_b
legacy_hqr_hcahps (Final Legacy Extract)
legacy_hqr_hcahps_final (Final Legacy Extract)
legacy_hqr_hvbp (Final Legacy Extract)
assessment_iqies
provider_iqies

The data refresh dates are published for awareness of data timeliness. If your organization requires data to be refreshed on a different timeline or cycle, please create a ServiceNow request for the “ADO-CDR-Support” and include details of your request including business justification, data source, requested refresh frequency, and requested refresh dates. The “Most Recent Refresh” refers to the date the data was extracted from the legacy database or source system. This data is typically available 24-48 hours after extraction. The “Next Refresh” date marks the last possible day the data will be available in the CDR. If you have any questions, please contact us at [HCQIS\\_Data@hcqis.org](mailto:HCQIS_Data@hcqis.org).

## New Distribution List

Our new distribution list entitled “QNet Analytics: QualityNet Analytics Notifications” is now available on the [QualityNet.org site](#). Members of this distribution list receive our meeting invitations, weekly communications, and maintenance information.

All users on our previous distribution list have been added to this new list by our team, so if you are receiving our communications regularly, no request for access should be made.

For individuals who are not yet receiving our communications, they should subscribe on the [sign-up page](#) under the Private lists tab. Please note that all users who are granted SAS Viya/CDR roles in HARP will automatically be added to the list upon being granted a role in HARP.

**Call to Action:** Please ensure that “[gnet-analytics@mailers.qualitynet.org](mailto:gnet-analytics@mailers.qualitynet.org)” is part of your safe sender list. If you are having issues whitelisting this email address, please contact your IT support for assistance.

Please check out Confluence for [more information](#) about this new distribution list.

## Important Links and Dates

Please note these helpful quick links below, pointing you to some key spaces on our CCSQ Data & Analytics internet facing space on Confluence:

- [CCSQ Data & Analytics Home Page](#)
- [Data Catalog](#)
- [Known Issues Log](#)
- [Communications Calls Archive](#)
- [Knowledge Base](#)

Upcoming key dates:

- Communications Call November 5th at 1:00pm EDT
