Weekly Communication

November 23, 2020

This email is part of a weekly communication series from the Data and Analytics Modernization team, designed to provide you the latest updates on the SAS Viya application, the Centralized Data Repository (CDR), and user experience offerings.

This week's email contains information and updates on the following topics:

- CCSQ Data & Analytics Data Camp – **Recordings, meeting materials, and survey now available!**
- Important URL Changes
- SAS 9.1 and 9.4 Server Decommission
- CDR Weekly Refresh Update
- Knowledge Base Article of the Week
- Important Links and Dates

CCSQ Data & Analytics Data Camp

Thank you to all our users who attended the very first CCSQ Data & Analytics Data Camp, a multi-session, multi-day event focused on educating the CCSQ Data & Analytics user community, on November 17th and 18th. During this special event, technical experts and special guests presented during multiple one-hour sessions, which focused on SAS Viya and the CDR.

Check out this page [here](#) on Confluence for the recordings and meeting materials. As the Data & Analytics Modernization team plans for the next Data Camp in early 2021, **please also note the feedback survey available to our users on that page.** We value your feedback and hope you take the time to share your thoughts from the event.

Important URL Changes

Please note that the SAS Viya URL has changed to <https://qnetanalytics-viya.cms.gov/>. The obsolete URL will automatically redirect you to the new URL to minimize access issues. This redirect will be in effect until **December 1st**.

Also, our Confluence space URL has changed to <https://qnetconfluence.cms.gov/display/DATA/>. The obsolete URL for our space will automatically redirect you to the new URL to minimize access issues. This redirect will be in effect until **November 25th**.

You are encouraged to update your bookmarks immediately.

SAS 9.1 and 9.4 Server Decommission

For all organizations and users utilizing the SAS 9.1 and 9.4 servers, please remember that these servers will be decommissioned as part of the Ashburn Data Center evacuation. This will occur on November 30, 2020. If any of these organizations or users have any questions about this upcoming decommission, please contact us at HCQIS_data@hcqis.org.

CDR Weekly Refresh Update

Please note below the data refreshes that occurred within the Centralized Data Repository (CDR) during the week of 11/15/2020 – 11/21/2020. For specific refresh dates of each source, please reference the CDR Data Catalog on [Confluence](#). The following sources were refreshed:

CDR Hive Schema
beneficiary_data
provider_pmi_data
nch_part_a
nch_part_b
assessment_iqies
provider_iqies
legacy_hqr_cart_final
legacy_hqr_hai
legacy_hqr_struct_msrs
nppes
legacy_hqr_ehqr

The data refresh dates are published for awareness of data timeliness. If your organization requires data to be refreshed on a different timeline or cycle, please create a ServiceNow request for the “ADO-CDR-Support” and include details of your request including business justification, data source, requested refresh frequency, and requested refresh dates. The "Most Recent Refresh" refers to the date the data was extracted from the legacy database or source system. This data is typically available 24-48 hours after extraction. The "Next Refresh" date marks the last possible day the data will be available in the CDR. If you have any questions, please contact us at HCQIS_Data@hcqis.org.

Knowledge Base Article of the Week: How to Utilize Workbench and FileCloud with SAS Viya

This week’s Knowledge Base article highlights “How to Utilize Workbench and FileCloud with SAS Viya”. This article will cover information on the workbench folder located in SAS Viya and how to utilize FileCloud within Viya. Check out the article [here](#) on Confluence for detailed information.

Important Dates and Links

Upcoming key dates:

- SAS 9.1 and 9.4 Server Decommission November 30th
- Communications Call December 3rd at 1:00pm EST
- Communications Call December 17th at 1:00pm EST

Please note these helpful quick links below, pointing you to some key spaces on our CCSQ Data & Analytics internet facing space on Confluence:
