**Subject:** [Qnet-analytics] CCSQ Data & Analytics Weekly Communication  
**Attachments:** ATT00001.txt

## QualityNet | Analytics

*Weekly Communication*

*December 28, 2020*

This email is part of a weekly communication series from the Data and Analytics Modernization team, designed to provide you the latest updates on the SAS Viya application, the Centralized Data Repository (CDR), and user experience offerings.

This week's email contains information and updates on the following topics:

- CCSQ Data & Analytics SAS Viya Learning Paths
- HQR Read-Replica Database Access Through SAS Viya
- CSAT Part D Data Discrepancy – **Update**
- HQR Program Resource System (PRS) – Available in CDR
- CDR Weekly Refresh Update
- Happy Holidays from the Data & Analytics Team
- Important Dates and Links

### **CCSQ Data & Analytics SAS Viya Learning Paths**

The Data & Analytics Modernization team is excited to announce a new addition to our training offerings, the CCSQ Data & Analytics SAS Viya Learning Paths. This resource on our Confluence page provides support and resources for beginner to advanced users as they work to improve their skills using the SAS Viya analytic tool, and utilize data in the Centralized Data Repository, or CDR. Our team has utilized Human-Centered Design practices to design each learning path with specific types of users in mind, thus each path will contain a unique

progression of courses, documentation, videos, and other materials to help users advance their skills.

**Both the Data Analyst and Senior Data Analyst Learning Paths are now available.** Please note that the content will continue to evolve as new information becomes available and best practices are established. If you have any questions, please contact us at [HCQIS\\_Data@hcqis.org](mailto:HCQIS_Data@hcqis.org). Click [here](#) to start your journey.

## HQR Read-Replica Database Access Through SAS Viya

Sample SAS code to access HQR read-replica databases has been posted to the [SAS Viya Knowledge Base](#). All login credentials are provided by the Hospital Quality Reporting (HQR) ADO. More details on read-replicas can be found [here](#). If you have any questions, please contact us at [HCQIS\\_Data@hcqis.org](mailto:HCQIS_Data@hcqis.org).

## CSAT Part D Data Discrepancy - Update

The corrected CY2018 CSAT Part D files have been completed and are available as of 12/25/2020. The historical CSAT Part D files (July-December 2017) are currently planned to be available by 12/31/2020. CSAT files for September 2016-June 2017 are also planned to be made available in the future. A target date of availability will be shared for these historical files as soon as possible.

More information is posted to the DAMOD [Known Issues Log](#). If you have any questions, please contact us at [HCQIS\\_Data@hcqis.org](mailto:HCQIS_Data@hcqis.org).

## HQR Program Resource System (PRS) – Available in CDR

The Data and Analytics Modernization team has granted access to the 'resource\_hqr\_prs' and 'resource\_hqr\_prs\_supplemental' hive schemas for organizations with approved access according to their CMS Data Use Agreement (DUA). This data will be provide a replacement of legacy schemas of 'legacy\_hqr\_prs', 'legacy\_sddw\_np\_sdps', and 'legacy\_sdol\_np\_sdps'.

The legacy schemas will remain available in the CDR however will no longer contain refreshed data. The 'resource\_hqr\_prs' schema corresponds to formerly known as 'sdol.np\_sdps' and 'resource\_hqr\_prs\_supplemental' corresponds to formerly known as 'sddw.np\_sdps'. This data is planned to be refreshed on a weekly basis in the CDR. Refreshed data is planned to be available by Monday each week. The next refresh of PRS will be available on Monday 1/4/2021.

More information including documentation and the latest refresh dates are posted to the CDR [Data Catalog](#).

## CDR Weekly Refresh Update

Please note below the data refreshes that occurred within the Centralized Data Repository (CDR) during the week of 12/20/2020 – 12/26/2020. For specific refresh dates of each source, please reference the CDR Data Catalog on [Confluence](#). The following sources were refreshed:

CDR Hive Schema
beneficiary_data
provider_pmi_data
nch_part_a
nch_part_b

The data refresh dates are published for awareness of data timeliness. If your organization requires data to be refreshed on a different timeline or cycle, please create a ServiceNow request for the “ADO-CDR-Support” and include details of your request including business justification, data source, requested refresh frequency, and requested refresh dates. The "Most Recent Refresh" refers to the date the data was extracted from the legacy database or source system. This data is typically available 24-48 hours after extraction. The "Next Refresh" date marks the last possible day the data will be available in the CDR. If you have any questions, please contact us at [HCQIS\\_Data@hcqis.org](mailto:HCQIS_Data@hcqis.org).

## Happy Holidays from the Data & Analytics Modernization Team

The Data & Analytics Modernization Team wishes that you have a happy and safe holiday season! To see a list of the upcoming events in the new year, please reference the Important Dates and Links section below.

## Important Dates and Links

Upcoming key dates:

- Communications Call January 21st at 1:00pm EST
- Communications Call February 4th at 1:00pm EST
- Communications Call February 18th at 1:00pm EST
- CCSQ Data & Analytics Data Camp Spring 2021

Please note these helpful quick links below, pointing you to some key spaces on our CCSQ Data & Analytics internet facing space on Confluence:

- [CCSQ Data & Analytics Home Page](#)
- [Data Catalog](#)
- [Known Issues Log](#)
- [CCSQ Data & Analytics SAS Viya Learning Paths](#)
- [Communications Calls Archive](#)
- [Knowledge Base](#)
