Weekly Communication

March 22, 2021

This email is part of a weekly communication series from the Data and Analytics Modernization team, designed to provide you the latest updates on the SAS Viya application, the Centralized Data Repository (CDR), and user experience offerings.

This week's email contains information and updates on the following topics:

- DARRT QII – Available in CDR
- CDR Weekly Refresh Update
- Highlighted Knowledge Base Article
- Important Dates and Links

DARRT QII – Available in CDR

The Data and Analytics Modernization team has granted access to the 'quality_measures_darrt_qii' hive schema for organizations with approved access according to their CMS Data Use Agreement (DUA). If an organization needs access to this data but does not currently have it listed on their DUA, please reference the DUA Mapping section of the CDR Data Catalog for the approved DUA entry.

The DARRT QII schema is planned to be refreshed on a weekly basis in the CDR. Refreshed data will be available after 1:00 AM ET each Wednesday. More information including the data dictionary, data model, and the latest refresh dates are posted to the CDR [Data Catalog](#).

CDR Weekly Refresh Update

Please note below the data refreshes that occurred within the Centralized Data Repository (CDR) during the week of 3/14/2021 – 3/20/2021. For specific refresh dates of each source, please reference the CDR Data Catalog on [Confluence](#). The following sources were refreshed:

CDR Hive Schema
beneficiary_data
provider_pmi_data
nch_part_a
nch_part_b
quality_measures_hqr_pub_report
quality_measures_darrt_qii
resource_hqr_prs
resource_hqr_prs_supplemental

The data refresh dates are published for awareness of data timeliness. If your organization requires data to be refreshed on a different timeline or cycle, please submit a [Request Form](#) and include details of your request including business justification, data source, requested refresh frequency, and requested refresh dates. Additional refresh details are included on the data catalog within the source description. The "Next Refresh" date marks the last possible day the data will be available in the CDR. If you have any questions, please contact us at HCQIS_Data@hcqis.org.

Knowledge Base Article of the Week: How to Open a ServiceNow Ticket

This week's Knowledge Base article highlights how a user can create a ServiceNow, or help desk, ticket. The article provides information and guidance on the purpose of SNow tickets, how a user can open a ticket, what information users should include in the ticket, and what happens after the ticket is submitted. Check out the article [here](#) on Confluence for detailed information.

Important Dates and Links

Upcoming key dates:

- Communications Call April 1st at 1:00pm ET
- Communications Call April 15th at 1:00pm ET
- Communications Call April 29th at 1:00pm ET
