*Weekly Communication*

*August 30, 2021*

This email is part of a weekly communication series from the Data and Analytics Modernization team, designed to provide you the latest updates on the CCSQ Analytics Platform (CAP), the Centralized Data Repository (CDR), and user experience offerings.

This week's email contains information and updates on the following topics:

- Fall 2021 Data Camp Topics Survey
- CDR Data Issues Updates
- CSAT Data Refresh – Delayed
- CDR Weekly Refresh Update
- Weekly Knowledge Base Article
- Important Dates and Links

## **Fall 2021 Data Camp – Topics Survey**

**The CCSQ Data & Analytics Team is excited to announce that the next CCSQ Data Camp will be held shortly in fall of 2021.** These data camps are multi-session, multi-day events focused on educating the CCSQ Data & Analytics user community. During these special events, technical experts and special guests present during multiple one-hour sessions, each ending with a question and answer session.

As the DAMOD Team continues preparations for this event, **we ask you to fill out the survey below to provide topic ideas for the sessions.** The survey consists of a couple of short answer

questions as well as a multiple choice question, and will take around three minutes to complete.

[Access the Survey](#)

## CDR Data Issues Updates

The below list includes updates on current data issues within the Centralized Data Repository (CDR). Please monitor the [CDR Known Issues Log](#) for the latest statuses and targeted resolution dates.

Schema Name	Current Status
resource_hqr_prs	The hlth_serv_provider table in this database currently has an issue with the rural/urban indicator. The HQR team has fixed the underlying data and the Data Modernization team expects the data in CDR to be updated on 8/30/21.
csat_2, csat_5	There is a current data issue with the CSAT 'bene_death_dt' column where new dates of death are not being updated. The CSAT team is performing an investigation to determine the scope of the impact. This issue is related to the recently identified issue with the PRS beneficiary merge process.
resource_hqr_prs_supplemental	<p>The Beneficiary merge code for PRS was found to have an issue where it isn't updating existing records and new data isn't being loaded properly into PRS. This was identified with death data originally sourced from BIC.</p> <p>The following tables are impacted:</p> <ul style="list-style-type: none"> <li>• resource_hqr_prs_supplemental.beneficiary</li> <li>• resource_hqr_prs_supplemental.bene_cross_reference</li> <li>• resource_hqr_prs_supplemental.entitlement_reason</li> <li>• resource_hqr_prs_supplemental.bene_migration</li> <li>• resource_hqr_prs_supplemental.bene_edb_mbi</li> <li>• resource_hqr_prs_supplemental.coverage</li> </ul> <p>The HQR ADO is working on correcting this merge code and then pulling anything that was missed since Nov 2020. The issue is targeted to be resolved by 9/1/2021.</p>
qmars	There is an issue with QMARS data where the count of appeals in the CDR differs from the QMARS system. The QMARS ADO is working to investigate the issue and determine a resolution. Once the QMARS ADO corrects the data issue, the DAMOD team will pull the corrected data into the CDR.
qmars	Longer text fields in the QMARS data are currently being truncated in the source schema. This issue is universal for columns with a string data type that are greater than 32

characters long. No target date for resolution has been provided by the QMARS ADO.

## CSAT Data Refresh – Delayed

CSAT\_2 and CSAT\_5 were scheduled to be refreshed on 8/27/21 but have been delayed. We are currently working with the CSAT team through the issues causing this delay, and expect that the refresh should occur shortly. Please watch the CDR Data Catalog page for the most up-to-date status on CSAT data availability.

## CDR Weekly Refresh Update

Please note below the data refreshes that occurred within the Centralized Data Repository (CDR) during the week of 8/22/2021 – 8/28/2021. For specific refresh dates of each source, please reference the CDR Data Catalog on [Confluence](#). The following sources were refreshed:

CDR Hive Schema
beneficiary_data
provider_pmi_data
nch_part_a
nch_part_b
ddps_part_d
quality_measures_darrt_qii
resource_hqr_prs
resource_hqr_prs_supplemental
quality_measures_hqr_char_abst
quality_measures_hqr_ecqm
quality_measures_hqr_data_form
quality_measures_hqr_val
provider_hqr_nop
resource_hqr_sec_admin
compare_nursing_home
public_data (zip codes and drug list)
quality_measures_qpp_uds

The data refresh dates are published for awareness of data timeliness. If your organization requires data to be refreshed on a different timeline or cycle, please submit a [Request Form](#) and include details of your request including business justification, data source, requested refresh frequency, and requested refresh dates. Additional refresh details are included on the data catalog within the source description. The "Next Refresh" date marks the last possible day the data will be available in the CDR. If you have any questions, please contact us at [HCQIS\\_Data@hcqis.org](mailto:HCQIS_Data@hcqis.org).

## Knowledge Base Article of the Week: How to Move Data from Hive to Workbench

This week's Knowledge Base article provides users steps on how they can move a Hive table to their organization's workbench. Check out this article [here](#) on Confluence for two methods that can be utilized, each with a step-by-step guide and code to provide assistance.

## Important Dates and Links

Upcoming key dates:

- Scheduled Production Maintenance Event – September 14th at 8:00pm ET
- Communications Call – September 16th at 1:00pm ET
- Communications Call – September 30th at 1:00pm ET

Please note these helpful quick links below, pointing you to some key spaces on our CCSQ Data & Analytics internet-facing space on Confluence:
