**Subject:** CCSQ Data & Analytics Weekly Communication

# QualityNet | Analytics

*Weekly Communication*

*November 8, 2021*

This email is part of a weekly communication series from the CCSQ Data and Analytics team, designed to provide you the latest updates on the CCSQ Analytics Platform (CAP), the Centralized Data Repository (CDR), and user experience offerings.

This week's email contains information and updates on the following topics:

- Communications Call – Next Thursday (Final Call for 2021)
- CDR Data Issues Updates
- CDR Weekly Refresh Update
- Weekly Knowledge Base Article
- Important Dates and Links

## Communications Call – Next Thursday (Final Call for 2021)

Please note that the final Communications Call for the year of 2021 will be held next week on Thursday, November 18th, at 1:00pm ET. **After this call, we will go on a winter break until we kick off the series again in 2022.** During the call next week, we will survey the community for potential agenda topics for future Communications Calls. We hope you can join us next week! An invitation will be sent out shortly.

## CDR Data Issues Updates

Schema Name	Current Status
assessment_iqies	An issue occurred during the iQIES refresh of the table 'hha_asmt_fed'. The 'hha_asmt_fed' table failed to refresh and currently contains data from the 10/15/2021 refresh. The team is working to troubleshoot the issue with the data owner. All other iQIES tables are not impacted and contain refreshed data from 11/5/2021.
resource_hqr_prs_supplemental	<p>The Beneficiary merge code for PRS was found to have an issue where it isn't updating existing records and new data isn't being loaded properly into PRS. This was identified with death data originally sourced from BIC.</p> <p>The following tables are impacted:</p> <ul style="list-style-type: none"> <li>• resource_hqr_prs_supplemental.beneficiary</li> <li>• resource_hqr_prs_supplemental.bene_cross_reference</li> <li>• resource_hqr_prs_supplemental.entitlement_reason</li> <li>• resource_hqr_prs_supplemental.bene_migration</li> <li>• resource_hqr_prs_supplemental.bene_edb_mbi</li> <li>• resource_hqr_prs_supplemental.coverage</li> </ul> <p>The HQR ADO is working to correct this merge code and pull anything that was missed since Nov 2020.</p>
qmars	There is an issue with QMARS data where the count of appeals in the CDR differs from the QMARS system. The QMARS ADO is working to investigate the issue and determine a resolution. Once the QMARS ADO corrects the data issue, the DAMOD team will pull the corrected data into the CDR.
qmars	Longer text fields in the QMARS data are currently being truncated in the source schema. This issue is universal for columns with a string data type that are greater than 32 characters long. No target date for resolution has been provided by the QMARS ADO.

Please monitor the CDR [Known Issues Log](#) for the latest status and targeted resolution date(s).

## CDR Weekly Refresh Update

Please note below the data refreshes that occurred within the Centralized Data Repository (CDR) during the week of 10/31/2021 – 11/6/2021. For specific refresh dates of each source, please reference the CDR Data Catalog on [Confluence](#). The following sources were refreshed:

CDR Hive Schema
nch_part_a
nch_part_b
beneficiary_data
provider_pmi_data
resource_hqr_prs
resource_hqr_prs_supplemental
quality_measures_hqr_data_form
quality_measures_hqr_char_abst
provider_hqr_nop
quality_measures_hqr_ecqm
resource_hqr_sec_admin
quality_measures_hqr_val
quality_measures_darrt_qii
healthcare_service_qmars_ng
health_plan
assessment_iqies
provider_iqies
quality_measures_qpp_uds

The data refresh dates are published for awareness of data timeliness. If your organization requires data to be refreshed on a different timeline or cycle, please submit a [Request Form](#) and include details of your request including business justification, data source, requested refresh frequency, and requested refresh dates. Additional refresh details are included on the data catalog within the source description. The "Next Refresh" date marks the last possible day the data will be available in the CDR. If you have any questions, please contact us at [HCQIS\\_Data@hcqis.org](mailto:HCQIS_Data@hcqis.org).

### Knowledge Base Article of the Week: How to Read Text Files from SAS Viya into a Native SAS Dataset

This week's Knowledge Base article provides users guidance on how to read text (.txt) files from SAS Viya in a native SAS dataset using the INFILE and INPUT statement. Check out this article [here](#) on Confluence for important notes and step by step instructions.

## Important Dates and Links

Upcoming key dates:

- Communications Call – November 18th at 1:00pm ET
- CAP & CDR Scheduled Maintenance Event – November 19<sup>th</sup> at 8:00pm ET
- CAP & CDR Scheduled Maintenance Event – December 17<sup>th</sup> at 8:00pm ET
