Call For Speakers

We are looking for speakers, contributors for panel discussions, and facilitators who can share their experiences and perspectives with human-centered design, product development, and other relevant topics with the CCSQ HCD Community of Practice.

Call for Speakers Submission Form.

The community of practice is a unique opportunity to share your perspective and expand thought leadership and visibility. If selected to speak, you will have a diverse audience of professionals from the Centers for Medicare and Medicaid Services and federal contractors across the product development ecosystem.

Generally, we meet virtually on Zoom on the last Friday of each month at 1 PM ET. The one-hour sessions involve designers and researchers, engineers, product managers, and anyone passionate about human-centered design. Speakers share insights in various formats, such as presentations, case studies, panel discussions, and mini-workshops.

Speakers include product team members and guest speakers. Recent sessions include The Content Audit: Agony and Ecstasy (presentation), Service Design for Hospital Quality Reporting: Service Blueprint and Journey Maps (case study), Driving Creativity and Improving Customer Experience with Empathy (panel discussion), and Creative Facilitation: Increase Collaboration, Productivity, and Innovation (mini-workshop).

The call for speakers will close on Friday, January 14. We will review the submissions and be in touch with everyone who submits by Friday, January 28.

Thank you in advance for your interest in contributing to the CCSQ HCD Community of Practice. If you have any questions, please contact us at hcd@hcqis.org.
